

Carlos Trujillo

Software Developer

My name is Jose Carlos and I work as a Web Director for Sun Broadcasting. I enjoy solving problems, writing code and managing Linux containers is just a fun way to channel it. I have a Bachelors in Automation Engineering and my motto is "It can always be better". I love a good challenge, especially those that scratch the back of your head even when you're away from the keyboard. I love spending my free time playing soccer, writing and enjoying music.

EXPERIENCE

Web Director Sun Broadcasting Inc.

02/2021 - Present Fort Myers, FL
Sun Broadcasting is the Southwest Florida market's news leader, broadcasting more than 65 hours of local news every week with its diverse news team, over radio, television and print media.

Achievements/Tasks

- Build, deploy and maintain all organization's web applications, including radio and news websites (**HTML, CSS, JS, ReactJS, PHP, WordPress, AWS, Linux, SQL, Apache, SASS**).
- Coordinate and deploy various audio, image and video advertising across all websites, and implementing tracking and analytics metrics.
- Solve incoming daily changes and additions on our ticketing system, prioritizing and logging tasks.
- Communicate with third-party vendors and integrate with their software or service.

Front End Developer Recovery Worldwide LLC

07/2019 - 02/2021 Orlando, FL
Recovery Worldwide is a privately-funded organization that is dedicated to creating and providing reliable content regarding addiction. Its flagship website, *AddictionCenter.com*, launched in 2014, it has quickly become one of the most visited addiction information resources on the web, with over 2 million unique visitors per month.

Achievements/Tasks

- Develop new user-facing features using different technical stacks (**VueJS, AlpineJS, Foundation, TailwindCSS, Bootstrap, Laravel, Webpack, Vagrant**).
- Bridge the gap between graphic design and technical implementation.
- Enhance application for maximum speed and scalability.
- Ensure high quality graphic standards and brand consistency.
- Create quality mockups and prototypes.
- Write functional requirement documents and guides.

Junior Web Developer Smarteknology LLC

06/2018 - 07/2019 Jacksonville, FL
A startup company developing a cloud-based solution for data collection, processing and prediction.

Achievements/Tasks

- Co-develop a dynamic, secure web application from scratch; launching a visually appealing and user-friendly interface (**HTML, CSS, JS, JQuery, Bootstrap, Ubuntu Server**).
- Build the front-end for several web applications and perform the integration with back-end solutions.
- Write and review all software documentation and update in version control.

TECHNICAL SKILLS

Front End Stack (HTML, CSS, JS, ReactJS)

Back End Stack (NodeJS, Express, MongoDB, SQL)

Deployment (AWS, Vagrant, Linux, CI/CD)

Source Control (Git)

Testing (Mocha, Chai, Jest)

Design (Adobe XD, Figma)

PROJECTS
